Every time my desktop is used, the theme changes EVERYTHING! The desktop wallpaper, the title bar and the taskbar. Any idea why this is happening, and how to fix it? Thx os September 14, 2013 ok i found the solution. go to %appdata%\Microsoft\Windows\Themes. there is a file called 3dballs.xml. open that file in notepad and you will see the xml code. copy and paste that code into 3dballs.xml and save. the theme will have the theme you wanted.Q: Как оставить пробел в имени файла при создании? Подскажите как можно оставить пробел в имени файла при создании? Мне нужно чтобы было вот так 09e8f5149f

I have tried using this: { "type": "message", "href": "", "recipient": { "id": "179971682621837" } } But this is displaying it as an normal message (and not as a chat). Has anyone ever tried to get the notification's message onto the chat? A: There are two ways you can do this: Via Platform-specific endpoints: - This feature is available to developers on the Live SDK platform. With it, you can send chat messages to Facebook users and access a developer-specified JavaScript object that contains status messages in the user's chat, message events, and message replies. This is also an important tool for maintaining your Facebook application's visibility. - More Info
